

QUALITY POLICY

The top management of **INDUSTRIAS YUK, S.A.** ensures to establish, review and maintain a quality policy suitable for its objectives as well as its commitment to the continuous improvement of the General Quality System, within the context of an organization dedicated to the manufacturing and marketing of transmission and conveying elements.

INDUSTRIAS YUK, S.A. is committed to comply with the necessary requirements that will provide a correct frame of reference in order to establish and review the quality objectives aimed at the conformity of our products and services and increase the satisfaction of our customers, thereby achieving a more productive and competitive organisation.

For this, the communication, the agreement and the participation of all the personnel of the company is considered necessary, as well as an understanding of the needs and expectations of all interested parties.

Through this Policy, our General Quality System intends to comply with all the applicable requirements of the **ISO 9001: 2015** standard.
